MARQUEES | GAZEBOS | PIT TENTS | PORTABLE SHADE

A Letter from Altegra

Tents are our passion and we are fortunate enough to be surrounded by a company of people who feel the same way and want to spread the passion to others. Our mission is to provide the end user with a product that is second to none and is seen as the market leader. We are continually striving to add new lines to our range and come up with cutting edge products time and time again. Whether it's the new Compact Canopy, Sublimation Printing or my favourite, the Altegra Heavy Duty 50mm Marquee it's our goal to make our brand a household name.

See YOU in the Outdoors

Regards

A handwritten signature in black ink, appearing to read "Altegra".

Collapsed Specification

Carton Size:	200cm x 33cm x 33cm
G.W / N.W:	49kg/46kg

WALL KIT OPTIONS

WALL KIT (MSK3)

The wall kit options are fantastic as each wall can be zipped on or off to suit your best set-up. You can configure your wall kits as you like moving them around or simply leaving sections off entirely. Each kit contains 2 x 3m multi walls that have 3 different uses being 1/ solid (fully zipped down), 2/ mesh for air flow and viewing (window flap rolled up) or 3/ the additional PVC window accessory can be added to still allow viewing whilst blocking the wind out.

Using the same 300g polyester with PVC coating as the canopies, the wall kits are a strong durable addition to your Marquee for all occasions. Each kit comes with it's own carry bag and pegs for ease of transporting and set-up.

HALF WALL KITS (AHW3)

Half Wall kits are ideal for a great effect for a market stall or corporate look. These can be used on all sides or just the one depending on your circumstances. These are available in all of the current colours and are simple to assemble and very effective.

ACCESSORIES

AWNING/VERANDA KITS (AA3)

This is a fantastic addition to your marquee. Not only does it provide additional shade but allows people to huddle under your Gazebo on those wet days.

This great feature is a must for all stall holders, giving you a unique and attractive selling difference.

GUTTERS, SANDBAGS, STEEL WEIGHTS

Altegra Australia provide consumers with many accessory options to compliment their range.

There are gutters to join the frames together to make a 3m x 6m area waterproof or however large you need. Also if you have to set up on hard surfaces you either have the option of 15kg steel weights or sandbags that can handle up to 13kg each. Both weights are easily transported with oversized carry handles in the sandbags and raised handles in the steel weights.

STANDARD COLOURS

Black

White

Red

Royal Blue

Yellow

Green

*Actual canopy shades and colours may vary from the printed colours.

* Compact Canopy 3m canopies will also fit the Altegra frames.
